### **Requirements for Inpatient Providers:**

- Schedule the first follow-up appointment for the patient. All inpatient discharges from behavioral health facilities require a seven-day and thirty-day follow-up with a behavioral health professional. Follow-up visits with primary care provider do not sufficiently meet the follow-up requirements.
- Begin discharge planning on the day of admission. Include utilization review, discharge planner, the patient and his/her family, and others desired by the patient.
- Coordinate care by notifying the patient's primary care provider of the recent hospitalization and provide a current listing of all prescribed medications. Follow-up should also be scheduled with primary care provider.
- Conduct follow-up calls with the patient to encourage medication adherence and discuss any side effects.
- Seek Blue Advantage assistance with any scheduling challenges before the patient is discharged, if needed.
- Share information with Blue Advantage. As a reminder, a release of information form is NOT required for a provider to release a member's relevant clinical information to Blue Advantage Behavioral Health staff per HIPAA Privacy Rule at 45 CFR 164.501.

A list of services that require prior authorization can be found in the *Provider Quick Reference Guide* on the Blue Advantage Provider Portal accessed through iLinkBlue ([www.BCBSLA.com/ilinkblue](http://www.BCBSLA.com/ilinkblue)).
