AFTER HOURS CARE

After hours physician CPT® codes are reimbursed as follows:

99050 – This code is separately reimbursed when the service provided is outside of the office’s regularly scheduled “posted hours” of operation, or days when the office is normally closed (e.g., holidays, Saturday or Sunday) in addition to basic services.

For example, if the office is regularly open Monday through Friday, 8 a.m. to 6 p.m., and the physician is requested to see a patient in the office at 10 p.m. on a Wednesday night, then the physician may report 99050 in addition to the appropriate evaluation and management (E&M) code. The medical record should reflect the medical necessity and services rendered.

- 99050 pays separately when billed with one of the following E&M codes: 99202–99215. 99050 is only reimbursed when submitted with the E&M codes listed.

99051 – This code may be eligible for reimbursement as an add-on code when submitted by a pediatrician, family practice, general practice, internal medicine or rural health provider with the appropriate primary code, and should be used by office-based providers for reporting services that were performed during regularly scheduled evening (after 6 p.m.), weekend or holiday office hours and are adjunct to the basic service performed. This code may be billed for services started any time after the office has been opened for eight consecutive hours.

- 99051 may be eligible for reimbursement as an add-on code when submitted with the appropriate primary basic service code.

After hours services are not separately reimbursable to urgent care centers. Please refer to the Urgent Care Centers section of our provider manual for the billing guidelines and the criteria that define an urgent care center.

The provider’s documentation in the medical record should support the need for these services.
