### Place of Service 02

Blue Cross does not consider place of service 02 valid for claims submissions. This helps ensure that the appropriate benefits and reimbursement apply. Use place of service 10 for all direct to consumer (DTC) telehealth services. We define DTC telehealth as telehealth services delivered directly between the provider and patient in their home environment (e.g., residence, workplace, personal space, etc.). Bill non-DTC telehealth with the appropriate place of service based on the member's location when services are provided. For example, if the member is in the inpatient hospital setting when receiving telehealth services, bill place of service 21. Claims billed with place of service 02 may reject. For additional guidelines related to telehealth please refer to Section 5.37 Telemedicine/Telehealth of the *Professional Provider Office Manual*.

### Place of Service 10

Use place of service 10 for all direct to consumer (DTC) telehealth services. We define DTC telehealth as telehealth services delivered directly between the provider and patient in their home environment (e.g., residence, workplace, personal space, etc.). For additional guidelines related to telehealth please refer to Section 5.37 Telemedicine/Telehealth of the *Professional Provider Office Manual*.

### Place of Service 15

Blue Cross does not consider place of service 15 valid for claims submissions for intraoperative monitoring services. Bill intraoperative monitoring services with the appropriate place of service based on the member's location when services are provided. This helps ensure the appropriate benefits and reimbursement apply. Claims for intraoperative monitoring services billed with place of service 15 may reject.

### Place of Service 19

Blue Cross does not consider place of service 19 valid for claims submission. If a service is provided in the "office" setting (see criteria below), place of service 11 should be used. If a service is provided in the "outpatient hospital" setting (on or off campus), place of service 22 should be used.

**Place of service 19 should not be used for any services.**

## Office Setting

Blue Cross follows AMA guidelines regarding the definition of “office” setting; however, Blue Cross also defines “office” setting as:

- Any office space within a hospital or facility which is separately identifiable as a provider’s private practice.
- Any office space at a hospital or facility’s off-campus or freestanding location which is separately identifiable as a provider’s private practice.
- Any services performed in a provider’s rented office space within a hospital or facility regardless of who owns the equipment (e.g., radiology, etc.)

**All professional services in an office or clinic setting should be billed on the CMS-1500 claim form with an “office” place of service 11. Place of service 19 should not be used for any services.**

Blue Cross does not recognize provider-based billing, which is a method of billing Medicare for certain clinics owned or affiliated with hospitals. For more information, please refer to the Provider Based Billing section of this manual.
