## DIETITIAN

Dietitians should adhere to the following billing guidelines when filing claims for members regardless of the date of service. These billing guidelines are not an indication that services are necessarily covered. Coverage determinations are based on the member's benefits. Always verify the member's benefits prior to performing services to determine if services are covered.

Dietitian services as they pertain to member benefits are defined as follows when rendered by a registered dietitian:

1. Nutritional Counseling – counseling to develop a dietary treatment plan to treat and/or manage health-related conditions other than diabetes.
  - No visit limitation
  - A maximum benefit limitation\* per benefit period
  - Services that exceed the dollar limitation are considered non-covered and will not accrue toward the member's cost share amount

*\* The maximum benefit limitation does not apply for all Blue Cross policies.*
2. Diabetes Counseling – counseling to develop a dietary treatment plan to treat and/or manage diabetes.
  - Dietitian visits related to diabetes services are not subject to the nutritional counseling maximum benefit limitation. Services billed with diabetes diagnosis codes are instead subject to a member's diabetes education and training for self-management benefits.
  - Members who have insulin-dependent diabetes, insulin-using diabetes, gestational diabetes or non-insulin using diabetes need to be educated on their condition and trained to manage their condition, if prescribed by the member's physician. Coverage is available for self-treatment training and education, dietitian visits and for the equipment and necessary supplies for the training.
  - Evaluation and training programs for diabetes self-management are covered subject to the following:
    - a. The program must be determined to be medically necessary by a physician and provided by a licensed healthcare professional who certifies that the member has successfully completed the training program.
    - b. The program shall comply with the National Standard for Diabetes Self-Management Education Program as developed by the American Diabetes Association.

## Outpatient vs. Inpatient

### Outpatient/Office Services

- Services should be filed on a CMS-1500 claim form

### Inpatient Services
