## PASS-THROUGH BILLING AND BILLING FOR SERVICES NOT RENDERED

Pass-through billing occurs when the ordering physician, professional provider, facility or ancillary provider requests and bills for a service, but the service is not performed by the ordering physician, professional provider, facility or ancillary provider. You may only bill for services that you or your staff perform.

Blue Cross does not permit pass-through billing, and you should not bill any pass-through services to our members.

Per our policy, providers may only bill for the following indirectly performed services:

1. The service of the performing provider is performed at the ordering provider's place of service and is billed by the ordering provider, or
2. The service is provided by an employee of a physician or other professional provider (e.g., physician assistant, surgical assistant, advanced practice nurse, clinical nurse specialist, certified nurse, midwife or registered first assistant, who is under the direct supervision of the ordering provider) and the service is billed by the ordering provider with use of the appropriate modifier when billing.

Additionally, billing for services not rendered, including lab services, is not permissible. Only the performing provider should bill for the services rendered to their patient.

We do not allow business arrangements of purchasing other entities' receivables, as this type of arrangement creates overpayments and misrepresentations in performing providers' payments.
