Genetic Testing for Alpha1-Antitrypsin Deficiency

Policy # 00664

Original Effective Date:07/01/2019

Retired Date: 03/14/2022

Genetic Testing for Alpha1-Antitrypsin Deficiency was retired effective 03/14/2022.

A retired medical policy is no longer active and is not utilized for coverage eligibility determination or claims processing as of the retired date.

This medical policy is being retired as a part of the collaborative partnership with Avalon Healthcare Solutions (Avalon). Avalon will provide routine testing management services to ensure enforcement of laboratory policies effective 04/01/2022.
