

837 Institutional Claims Standard Companion Guide

Refers to the Implementation Guides Based on ASC X12N version: 005010X223A2

Indemnity Company.

Blue Cross and Blue Shield of Louisiana's

837 Institutional Claims Standard Companion Guide

This guide is for clarification purposes only and is intended to assist in the submission of 8371 transactions to Blue Cross and Blue Shield of Louisiana (BCBSLA). It is not intended to include all claim filing guidelines or in any way to exceed the requirements or usage of data expressed in the TR3.

This companion guide has been developed by BCBSLA and should be used in conjunction with the ASC X12 Standards for Electronic Data Interchange Technical Report Type 3 (TR3) Health Care Claim: Institutional version 005010X223A2.

To use this guide, first familiarize yourself with the table of contents, which will direct you to the information you need.

All times in this guide refer to Central Standard Time (CST).

This guide is available online at www.BCBSLA.com/providers > Electronic Services > Companion Guides.

If you have questions about the information in this guide, you may send an email to EDIServices@bcbsla.com.

Please Note:

This guide contains general instructions. It is provided for informational purposes only. Every effort has been made to print accurate, current information. Errors or omissions, if any, are inadvertent.

Disclosure Statement:

Claim adjudication to which a member is entitled are limited to those set out in the member's benefit plan in effect at the time services are performed. The payment of a claim is subject to and conditioned on the terms of the member contract/certificate, including, without limitation, eligibility, waiting periods, exclusions, medical waivers or riders, deductibles, coinsurance, copayments, coordination of benefits or other contract limitations, and/or determinations of medical necessity. Benefits for care received from non-network provider and/or for care not authorized by the member's Blue Plan, where required, may be subjected to the member's out-of-network benefits and/or contract stipulations.

Additionally, BCBSLA is committed to maintaining the integrity and security of healthcare data in accordance with applicable state and federal laws and regulations.

General Information

The Health Insurance Portability and Accountability Act of 1996 (HIPAA), requires that all health insurance payers (including but not limited to BCBSLA) and all covered entities adopt national standards for electronic healthcare transactions, code sets, unique health identifiers and security. The 837I transaction set has been named under 45 CFR 162 as the Electronic Data Interchange (EDI) standard for Health Care Claim Institutional.

Scope

All clients exchanging institutional claim transactions must use the X12 IG/TR3 5010 ASC X12N 837I (005010X223A2), Health Care Claim: Institutional and the ASC X12 999, Implementation Acknowledgement for Health Care Insurance. Both can be purchased from the Washington Publishing Company.

This companion guide is within the framework of the ASC X12 adopted for use under HIPAA and is not intended to contradict or exceed the X12 requirements.

This guide provides clarification on BCBSLA requirements of situational data elements and segments that must be used as well as those that do not apply to BCBSLA. Additionally, it contains detailed information regarding the setup process, BCBSLA contact information, accepted communications, reports and more. Therefore; this document should be used by technical and business resources involved in the 837I process exchange.

Providers, clearinghouses and/or third-party vendors, hereinafter referred to as trading partners should use this companion guide to supplement the X12 guides for exchanging 837I transactions with BCBSLA.

All claim transactions must also conform to guidelines set forth in our BCBSLA provider manuals, including the *Member Provider Policy & Procedure Manual** as well as comply with any provisions in your BCBSLA provider agreement(s).

*The manual is available online at www.BCBSLA.com/ilinkblue > Resources.

Overview

The 837I inbound is the claim transaction sent from the trading partner to BCBSLA to request claim adjudication. We allow batch submissions of claim transactions.

Batch transactions are an accumulation of 837 claim transactions for many members/patients. Once accumulated, the trading partner connects to BCBSLA and the "batch" is dropped off for processing.

On a normal business day, claim transmissions are moved at 3 p.m. for nightly processing. All batch transmissions received after this time will be processed the following business day. Additional details regarding normal business days and response times can be found in the "Connectivity with the Payer/Communications" section of this guide.

Claim transactions are subject to HIPAA validation. Validation occurs at the batch and claim level. All claim transactions are subjected to the Workgroup for Electronic Data Interchange (WEDI) Strategic National Implementation Process (SNIP) validation levels 1-4:

| SNIP Level | Validation | Purpose of Validation |
|------------|----------------------------|---|
| 1 | EDI Syntax Integrity | Ensures valid X12 syntax submitted |
| 2 | Syntactical Requirement | Validates X12 adheres to Implementation Guide (IG) |
| 3 | Balancing | Verifies field totals are correct and financial balancing |
| 4 | Situational | Tests inter segment situations (if A occurs then B is required) |

In addition, BCBSLA business-specific edits are applied. A complete listing of the error message descriptions can be found in the "Acknowledgements and Reports" section of this guide.

Claims that fail HIPAA validation or BCBSLA's business rules require correction and resubmission.

Reference

X12 Version 5010A1 Technical Requirements 3:

X12 transactions are developed and maintained by the Accredited Standards Committee X12, which is chartered by the American National Standards Institute. X12 guides are published and can be purchased from the Washington Publishing Company website at www.wpc-edi.com.

Getting Started

Working with BCBSLA

Trading partners exchanging 837I transactions with BCBSLA may do so 24 hours, seven days a week. The system will be periodically unavailable for scheduled maintenance and updates outside of normal business hours. Although BCBSLA strives to have the systems available 24 hours, seven days a week, uninterrupted service is not guaranteed.

Production transmissions are moved at 3 p.m. for nightly processing. All batch transmissions received after this time will be processed the following business day.

We provide both email and telephone support to our clients during our normal business hours, Monday through Friday, 8 a.m. to 4:30 p.m. Exceptions are made for holidays and emergency closures.

Trading Partner Registration

Trading partner registration is required in order to exchange transactions with BCBSLA.

The following table is designed to provide a high-level guide of enrollment and the activation process. For complete details on testing and moving into production processing, refer to the "Testing Overview" section of this guide.

| Step | Activity |
|------|---|
| 1 | EDI Enrollment |
| | For initial enrollment, sign and return two (2) originals of the Electronic Trading Partner |
| | Agreement ("Agreement") and the EDI Transaction Addendum. These documents can be |
| | downloaded from the BCBSLA corporate website. |
| 2 | Test Submitter ID Assigned and Notification |
| | Upon receipt of the appropriate agreements, BCBSLA will issue a test submitter |
| | identification (ID) number and a secure password. |
| 3 | Testing |
| | Trading partner submits test transactions. Large locations maximum of 1,000 claims. Small |
| | locations, a minimum of 50. |
| | File should contain valid patient data; otherwise, the test may fail. |
| | Must contain claims representative of claims that will be submitted in production. |
| | The trading partner is responsible for reviewing test results, correcting identified errors |
| | and retesting. |
| 4 | Live/Production |
| | Once a successful test is completed, an EDI representative will issue a production |
| | submitter ID number and a secure password via written notification (email). |

Testing Overview

BCBSLA will require testing with trading partners before accepting production transmissions. Testing is prudent to ensure errors are identified prior to moving into production submissions. Failure to properly test can result in a negative impact on provider cash flow.

The trading partner will receive all report outputs that are available in production. For example, if a trading partner submits a test file, they will receive a TA1 and 999. Then, depending on the results; other reports may be provided. To explain, when the entire submission passes HIPAA validation, the Accepted/Not Accept Report will be generated. When individual claims or a batch (ST/SE) fails, the BCCLREDI report will also be returned. However; when the entire submission (ISA/IEA) fails, only the BCCLREDI report will be returned.

Retesting is required if you are upgrading your billing software or changing software vendors. BCBSLA reserves the right to revoke production status when trading partners' transactions repeatedly cause production errors.

Testing with the Payer

Adhere to this checklist to ensure a smooth transition in the electronic exchange of transactions with BCBSLA.

Testing Checklist:

| | Validate Key Fields Prior to Test & Production Submissions | | | |
|----------|---|--|--|--|
| √ | Verify usage indicator in the ISA15 is correct (Must be T for test and P for production) | | | |
| ✓ | Use valid patient data and a rich variety of production claim types | | | |
| ✓ | Validate the Blue member ID number and that the contract number fields include the member's 3-character prefix. Federal Employee Program member ID numbers do not have a 3-character prefix. These member ID numbers have the letter "R," followed by eight or nine numeric values. | | | |
| ✓ | Confirm the correct billing provider number, National Provider Identifier (NPI) and taxonomy (when subunits share an NPI) are accurate for the unit in which services were performed | | | |
| ✓ | Verify the assignment of benefits indicator correctly identifies the appropriate direction of payment (provider or subscriber) | | | |

Testing Steps

Below is a quick view of testing and how to request production activation.

| | Testing Requirements |
|----|---|
| 1 | Trading partner submits completed Electronic Trading Partner Agreement |
| 2 | BCBSLA distributes a test submitter ID and secure password |
| 3 | Trading partner creates test file of claims containing: |
| | Valid patient data |
| | Rich variety of the claim types that will be submitted in production |
| | Example: In and outpatient surgery, diagnostic and medical, emergency room |
| 4 | Maximum of 1,000 claims per test. For smaller facilities, a minimum of 25/50 claims are required for test/approval |
| 5 | Trading partner transmits test file to BCBSLA clearinghouse |
| 6 | Test files automatically process at 8 a.m. and 10 a.m. Monday - Friday |
| 7 | Trading partner retrieves and reviews the following reports: • TA1 |
| | • 999 |
| | BCCLREDI (if generated) A count (Not A count of (if aloine a count MDAA collidation) |
| | Accept/Not Accepted (if claims pass HIPAA validation) - " |
| 8 | Trading partner corrects and resubmits files if errors issued on BCCLREDI or Not Accepted Report |
| 9 | Continue testing (all claims) until 98% pass rate achieved |
| 10 | Trading partner emails EDIServices@bcbsla.com to advise: |
| | Testing complete |
| | Date of Accept/Not Accepted Report that indicated 98% pass rate |
| | Request approval to be moved into production |
| 11 | Once a successful test is completed, an EDI representative will issue a production submitter ID number and a secure password via written notification (email) |
| | Note: Test Transactions are NOT Processed for Payment |

Connectivity with the Payer/Communications

Process Flows

To submit 837I transactions with BCBSLA, the trading partner needs to comply with the requirements in our high-level enrollment process:

| Step 1 | Step 2 | Step 3 | Step 4 | Step 5 | Step 6 |
|---|--|--|-----------------------------------|---|---|
| •Execute the Electronic Trading Partner Agreement and mail to BCBSLA | •BCBSLA receives and conducts internal setup | •Trading partner received test ID and password | •Trading partner conducts testing | •Trading partner emails BCBSLA to request approval for production | •Trading partner begins production exchange |

Transmission Administrative Procedures

Structure Requirements

For claim transactions we accept batch transactions. Batching is an accumulation of 8371 transactions for many members/patients. Once accumulated, the trading partner connects to BCBSLA and the "batch of transactions" is dropped off for processing.

Response Times Production

Responses for transactions received Monday through Friday (non-holiday) by 3 p.m., should be available by 8 p.m. the same business day. Transactions received after 3 p.m., all responses will be returned by 8 p.m. the following business day.

Test

Responses will be returned at 8 a.m. and 10 a.m.

Communication Management

BCBSLA has selected a communication management software package called Ipswitch Messageway as the focal point for secure file transfers with business partners.

File Transfer Protocol (FTP)

The secure session options that BCBSLA has available to its clients are:

- FTPS FTP with SSL (Implicit encryption)
- FTPS FTP with SSL (Explicit encryption)
- SFTP FTP over SSH

Just about any modern secure FTP client will work as long as it supports FTPS and SFTP. A list of common software packages that can be used to establish connection is listed below. Please be aware that BCBSLA does not advocate any of these products over the others available.

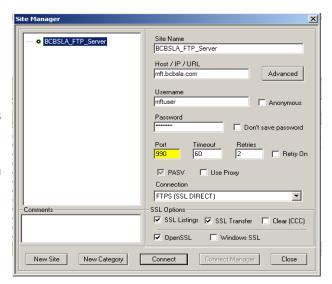

| Common FTP Software |
|----------------------|
| FileZilla |
| CuteFTP |
| CoreFTP |
| Glub Tech Secure FTP |
| WS_FTP Professional |

If you are already using a dedicated FTP client, chances are it already has secure FTP capabilities built into it, so it is advised to explore that option prior to upgrading or changing to a different client program.

Configuring FTPS (Implicit port 990)

In the connection setup or properties of the connection to MFT.BCBSLA.COM (199.117.168.21), locate the option that allows you to choose the protocol type. Select the uses FTP with SSL (implicit encryption) on port 990.

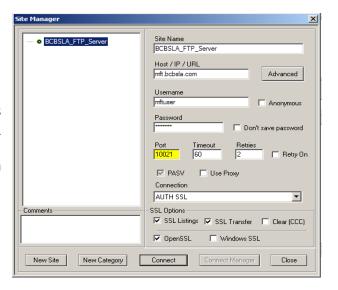

To help illustrate this procedure, to the right is a screen capture from the CoreFTP client on how this feature appears (configuration options may vary depending on which FTP client is being used).

Configuring FTPS (Explicit port 10021)

In the connection setup or properties of the connection to MFT.BCBSLA.COM (199.117.168.21), locate the option that allows you to choose the protocol type. Select the uses FTP with SSL (explicit encryption) on port 10021.

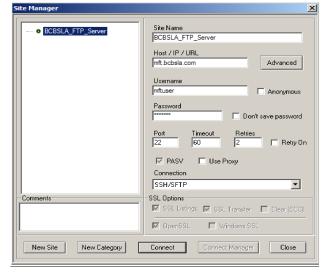

To help illustrate this procedure, to the right is a screen capture from the CoreFTP client on how this feature appears (configuration options may vary depending on which FTP client is being used).

Configuring SFTP

In the connection setup or properties of the connection to MFT.BCBSLA.COM (199.117.168.21), locate the option that allows you to choose the protocol type. Select the option that uses SFTP using SSH on <u>port 22</u>.

To help illustrate this procedure, to the right is a screen capture from the CoreFTP client on how this feature appears (configuration options may vary depending on which FTP client is being used).

FTP File Formats

BCBSLA accepts HIPAA ASC X12N approved standard transaction formats. The table below lists accepted transaction formats and their transmission modes.

| Transactions | Transaction ID | Mode |
|----------------------------------|----------------|---------------------|
| Institutional Claims | 8371 | Batch |
| Professional Claims | 837P | Batch |
| Dental Claims | 837D | Batch |
| Eligibility Request and Response | 270/271 | Real-time and Batch |
| Claim Status and Response | 276/277 | Real-time and Batch |
| HC Services Review and Response | 278 | Real-time and Batch |
| Electronic Remittance | 835 | Outbound-Batch |

FTP Host Site

MFT.BCBSLA.COM (199.117.168.21)

Trading Partner Submitter ID and Passwords

HIPAA privacy and security rules set forth in Social Security Act § 1173(d) require authentication to ensure that unauthorized access to protected health information does not occur. Therefore, BCBSLA has instituted ID and password protections with trading partner's engaging in EDI transactions.

Authentication requires a unique trading partner ID and a password. Once the Electronic Trading Partner Agreement has been authorized, BCBSLA assigns and distributes, via the US postal service, at least one trading partner ID and in a separate mailing the secure password.

Each trading partner is responsible for maintaining the security of the ID and password.

Control Segments/General Structure

- Each inbound transaction must contain at least one ISA/IEA interchange. Within the ISA to IEA, at least one GS/GE functional groups, and each GS/GE must contain one or more ST/SE transaction sets.
- Drug codes require National Drug Code (NDC) codes
- Negative values are not processed
- Claim charges submitted in excess of \$99,999,999.99 are not allowed
- Maximum of 5,000 claims per batch
- Maximum of 99 lines per claim
- BCBSLA does not support file compression
- BCBSLA recommends that trading partners use the preferred transaction delimiters:

Preferred 837 Transaction Delimiters

| Character | Name | Delimiter |
|-----------|----------|-----------------------------|
| * | Asterisk | Data Element Separator |
| : | Colon | Component Element Separator |
| ~ | Tilde | Segment Terminator |
| ۸ | Carat | Repetition Separator |

Enveloping Specifications

The following pages define the BCBSLA-specific requirements regarding the header and trailer associated with the Interchange Control (ISA/IEA), Function Group (GS/GE) and Transaction Set (ST/SE).

Interchange Control/Envelopes ISA (Header) and IEA (Trailer)

| Element | Description | Value | Comments |
|---------|---|------------|--|
| ISA01 | Authorization Info Qualifier | 00 | Use 00 |
| ISA02 | Authorization Info | 1234567890 | Must use 1234567890 |
| ISA03 | Security Qualifier | 00 | Use 00 |
| ISA04 | Security Information | 1234567890 | Must use 1234567890 |
| ISA05 | Interchange ID Qualifier | ZZ | Must use ZZ |
| ISA06 | Interchange Sender ID | | Submitter ID number assigned by BCBSLA Fixed length field; 15 positions must left justify GS02 must contain same value |
| ISA07 | Interchange ID Qualifier | ZZ | Must use ZZ |
| ISA08 | Interchange Receiver ID | BCBSLA001 | Must use BCBSLA001. Fixed length field; 15 positions must left justify Ex. BCBSLA001 |
| ISA09 | Interchange Date | YYMMDD | Use YYMMDD format |
| ISA10 | Interchange Time | ННММ | Use HHMM format |
| ISA11 | Repetition Separator | ۸ | Use ^ (carat) |
| ISA12 | Version ID | 00501 | Must use 00501 |
| ISA13 | Interchange Control # | | Must be identical to value in IEA02 |
| ISA14 | Acknowledgement Requested | 0 or 1 | TA1 will automatically be sent for files that cannot be processed or submitted for HIPAA validation |
| ISA15 | Usage Indicator | T or P | Must be T for test or P for production |
| ISA16 | Component Separator | : | Use : (colon) |
| IEA01 | Number of Included Functional Groups | | Count of functional groups (GS to GE) contained within the interchange |
| IEA02 | Interchange Control # | | Assigned by the sender. (IEA02 must be identical to ISA13). Fixed length field must contain 9 positions. |

Functional Group GS (header) and GE (trailer)

| Element | Description | Value | Comments |
|---------|-------------------------------|--------------|--|
| GS01 | Functional Identifier Code | НС | 837 Institutional = HC |
| GS02 | Application Sender ID | | Must use Submitter ID number assigned by BCBSLA. Must contain same value as ISA06. |
| GS03 | Application Receiver ID | BCBSLA001 | Must use BCBSLA001 |
| GS04 | Date | CCYYMMDD | Creation Date in CCYYMMDD format |
| GS05 | Time | ННММ | Creation Time in HHMM format |
| GS06 | Group Control Number | Same as GS02 | Assigned by the sender (GS06 must be identical to GE02) |
| GS07 | Agency Code | Х | Must be X Accredited Standards Committee |
| GS08 | Version/Release | 005010x223A2 | 837I must be: 005010X223A2 |
| GE01 | Number of Transaction Sets | | Total number of transaction sets (ST to SE) contained within the functional group |
| GE02 | Group Control Number | | Assigned by the sender (GE02 must be identical to GS06) |

Transaction Set ST (header) and SE (trailer)

| Element | Description | Value | Comments |
|----------------|-------------------------------------|--------------|---|
| ST02 & SE02 | Transaction Set Control Number | | Assigned by the sender (ST02 must be identical to SE02). Field must contain 4 – 9 positions and cannot contain more than 3 leading zeros. |
| ST03 | Implementation Convention Reference | 005010X223A2 | For 837 Institutional must use: 005010X223A2 |

Payer Specific Business Rules

BCBSLA Contract Numbers

The member ID number is vital in submission of paper and electronic transactions. Obtaining a basic understanding of the various contract types should assist in avoiding unnecessary rejections for invalid contract number.

Contract/Claim Filing Guide

BCBSLA Contract Types

| Туре | Contract | How to Identify | Filing Guide | Member ID Examples | Report Prefix |
|--------|--|---|--|--|------------------|
| BCBSLA | Blue Cross and Blue Shield of Louisiana | Member ID card indicates Blue Cross and Blue Shield of Louisiana as the healthcare plan | Always include the 3-character prefix that precedes the member ID. Patient name (first and last) and date of birth must match the BCBSLA system. | XUA 200000000 XUP 223456789 XUH 123456789 BPS 123456789 | Yes |
| FEP | Federal Employee Program | Member ID begins with R, followed by 8 or 9 numeric digits | First position must be R, remaining 8 or 9 positions must be numeric | R123456780 R03456789 | N/A |
| ITS | Out of Area BlueCard® | 3-character prefix. Members ID card shows a BlueCard indicator | Always include the 3-character prefix that precedes the member ID. The prefix can be either all alpha or alpha numeric. | S4W 1234567890 MTM 123456789 | Yes |

Taxonomy Codes

Taxonomy codes are federally established 10 position alpha-numeric codes that healthcare providers use to identify their unique specialty areas.

When a healthcare provider (professional or facility) has a single NPI that is shared for multiple specialties/locations, BCBSLA uses the NPI, Tax ID, DOS and ZIP code in order to achieve a one-to-one match to the appropriate BCBSLA-assigned provider number. In the event a single match cannot be made, then the taxonomy code is required on claim submissions and is then used to select the appropriate number.

The following table provides a listing of the taxonomy codes currently set up for submission to BCBSLA. To expedite claims submission, it is recommended that if a taxonomy code is required for claim processing, the selection of a valid code be made from this listing. If a code will be used that is not listed, prior to submitting claims, please contact EDI Services, to advise the taxonomy code you will be using and to determine if BCBSLA will set up that taxonomy code for claims processing.

Failure to work with EDI staff prior to using a taxonomy code not found on the table may result in rejected claims.

Taxonomy Codes Set Up in BCBSLA System

| Provider Description | Taxonomy Code | Claim Type |
|---|---------------|------------|
| General Acute Hospital | 282N00000X | 8371 |

Acknowledgement and Reports

The BCBSLA clearinghouse provides a series of reports to assist in the tracking and monitoring of transactions. Clearinghouse reports are a critical part of the electronic submission/balancing process.

Trading partners must download their reports unless the FTP software is configured to pull them automatically.

Reports Generated After Claim Submission

| File Name | Report Name | Purpose of Report |
|--------------------|--------------------------------------|--|
| BCTA1.out | TA1 Interchange Acknowledgement | Immediate Acknowledgement of Communication |
| BC999.out | 999 Functional Acknowledgement | Indicates the validity of the transaction |
| CLREDI.html | HIPAA validation | Created only if HIPAA validation errors have been detected |
| BCAccNotAccRep.out | BCBSLA Accepted/Not Accepted Reports | Disposition listing of claims after BCBSLA Business Rules applied |

The trading partner is responsible for monitoring all reports to ensure all transactions sent were received and accepted. All rejections and failures require correction and resubmission.

TA1 Interchange Acknowledgement

The TA1 communication report is an immediate acknowledgement of communication and receipt of transmitted files. It is the first step in the reconciliation process.

The TA1 provides the status of an X12 interchange header and trailer. Positive and negative TA1 acknowledgements will be available for X12 files. Negative TA1 reports are generated for files that cannot be processed or submitted for HIPAA validation. The trading partner is responsible for correcting and resubmitting files that produce a Negative TA1 report.

Functional Acknowledgment Report: 999

The 999 report is available for all X12 transactions and indicates the validity of a standard transaction. Trading partners will be able to download this report the next time they connect to the BCBSLA clearinghouse. If the 999 contains a rejected status, in many cases the trading partner will receive our HIPAA validation report (BCCLREDI).

A rejected 999 requires the claim or file be corrected and resubmitted.

HIPAA Validation: BCCLREDI Error Report

All transactions are subjected to the Workgroup for Electronic Data Interchange (WEDI) Strategic National Implementation Process (SNIP) Validation levels 1-4. Levels 5 and 6 are included in the BCBSLA business-specific edits.

Transmissions or claims that fail validation require correction and resubmission.

| SNIP Level | Validation | Description of Validation | Report/ File Name |
|---------------|------------------------------|---|----------------------|
| 1 | Syntax Integrity | Valid X12 Syntax Submitted | CLREDI |
| 2 | Syntactical Requirement | X12 Adheres to TR3 | CLREDI |
| 3 | Balancing | Field & Financial Balancing | CLREDI |
| 4 | Situational | Inter Segment Situations -if A occurs then B is required | CLREDI |
| 5 | External Code Sets | TR3 Medical Code Sets (Included in BCBSLA Business Rules) | NOT ACCEPTED |
| 6 | Business Specific Testing | Payer (BCBSLA) Business Requirements | NOT ACCEPTED |

This report is generated/returned only when HIPAA validation errors are detected at the Transmission (ISA/IEA, entire file), Functional Group (GS/GE) Transaction set (ST/SE) or individual claims (Detail Segments). If no errors detected, this report will not be generated.

| Normal Severity | Resubmit Batch or Claim |
|---------------------|---|
| ISA/IEA GS/GE ST/SE | Correct and resubmit the BATCH identified |
| CLM | Correct and resubmit CLAIM or CLAIMS identified |
| NM1*85 | Correct and resubmit ALL CLAIMS associated with the provider Number that failed |

Transactions/Claims Failed HIPAA Validation

Only claims with "normal" listed in the "severity" column have been rejected. Informational and "warning" listed in the severity column are alerts and do not require resubmission.

Instructions: Finding Failed Transactions/Claims:

- Conduct a search (CTRL F) in report for the word "normal."
 Each occurrence will provide the exact error which caused the failure and the error message. The error message contents should provide the information needed to correct the claim/batch.
- 2. Continue the search throughout the entire report as all claims/batches with the "normal" indicator requires correction and resubmission.

Sample Report: Warning and Normal Severity Errors

BCBSLA Business Rule Validation

All claims submitted are validated against a comprehensive set of BCBSLA business rules. The Accepted/Not Accepted Report is provided to reflect all claims that passed HIPAA validation (failures are provided on the BCCLREDI report) and were subjected to our BCBSLA business rules. Claims that pass the BCBSLA business rules are listed on the Accepted Report and claims that fail the BCBSLA business rules, appear on the Not Accepted Report.

Note: The warning section of this report is not being used at this time.

- Claims listed on the Accepted Report have moved into the BCBSLA claims processing system and require no further action
- Claims listed on the Not Accepted Report contain errors and require correction and resubmission

For transactions received Monday through Friday (non-holiday) by 3 p.m., the Accepted/Not Accepted Report will normally be available by 8 p.m. the same business day. For transactions received after 3 p.m., the report will be available the following business day by 8 p.m.

Sample Accepted Report

No action is needed on the claims appearing on the Accepted Report.

Not Accepted Report

The Not Accepted Report identifies claims with critical errors, which were not accepted for processing. All claims that appear on the Not Accepted Report must be corrected and retransmitted for processing.

The Error Description field on the report provides a verbose message indicating the critical error detected. The Error Data field on the report, when populated, shows the information from the claim that requires correction.

The following pages contain the Error Descriptions listed in alphabetic order along with the edit logic. This should provide the details needed to correct and resubmit claims found on the Not Accepted Report.

Not Accepted Error Message Descriptions

| Error Message | Description |
|--|--|
| ACCOM REV CODE MUST BE PRESENT | Inpatient type bill must contain accommodation revenue code(s) |
| ACCOM UNITS NOT EQ TO COV NONCOV DAY | Inpatient type bill requires the sum of units for all room revenue codes must be equal to the covered days. Inpatient type bill with leave of absence revenue code is present, units for the leave of absence revenue code must be equal to the non-covered days. |
| ADJ CLM REQS ICN CLAIM NUMBER | Adjustment claim does not contain the internal control number (ICN) assigned by BCBSLA to the original claim. The ICN can be found on the BCBSLA payment register or in iLinkBlue system on the claim status application. |
| ADJCLM PROCESSING WAIT UNTIL COMPLETE | There is already an adjustment claim for the ICN on this claim in our processing system. If needed, submit another adjustment claim after the adjustment on file has completed processing. |
| ADMISSION TYPE INVALID | Type of admission code is blank or not equal to 1 - 5 or 9 |
| ADMIT HOUR MUST BE 00 THRU 23 | Must be present on inpatient claims and a valid admit hour. Must be four numeric positions indicating hour and minute of admission (HHMM.) |
| AMBULANCE HCPCS REQS VALID AMB REV CODE | Ambulance HCPCS required with valid ambulance revenue code |
| ASSIGNMENT OF BENEFITS MISSING OR INVAL | The assignment of benefits indicator must be a Y or an N to indicate if the benefits are assigned |
| BILL NPI NOT IN BCSYS FAXTO 225_297_2750 | Billing provider NPI is not loaded in the BCBSLA system. To have setup, submit as instructed in the "Appendices" section of this guide. |

| Error Message | Description | | |
|--|---|--|--|
| BILL NPI TAXID COMBO NOT SETUP FAX INFO | Billing provider NPI and Tax ID number submitted is not set up in BCBSLA system. To have setup, submit as instructed in the appendices section of this guide. | | |
| BILLING NPI MATCHES MULTI PROVIDER RECORDS | Using information submitted, we are unable to locate a single BCBSLA Provider ID number to apply on this claim. Resubmit using the G2 qualifier along with the appropriate BCBSLA assigned Provider ID. | | |
| BILLING PROVIDER TAXONOMY REQUIRED | NPI and Tax ID require the submission of a taxonomy code set up in the BCBSLA file | | |
| BLUEADV | A claim with a contract number prefix of XUN or XUM is a Blue Advantage claim and must be filed to Change Health Care with a Payer ID of 84555 | | |
| COVERED FROM DATE INVALID | Statement covered from date must be numeric The date must be in valid date format The "covered from" date cannot be greater than the current date | | |
| COVERED THRU DATE INVALID | The "covered thru" date must be a valid date on orafter the "covered from" date (first date of service) The "covered thru" date must be numeric The "covered thru" date must be on or prior to the current date | | |
| DIABETES DIAG REV REQS CPT4 OR HCPCS CODE | Diabetes diagnosis revenue codes requires specific CPT or HCPCS codes | | |
| DIAG CODE REQUIRES 4 TH 5 TH 6 TH OR 7 TH DIG | The diagnosis code identified requires the fourth, fifth, sixth or seventh positions to further describe/define the diagnosis | | |
| DIAGNOSIS CODE MISSING OR INVALID | Principle Diagnosis cannot begin with V, W, X or Y (V00 – Y99) Diagnosis code must be present Principle and other diagnosis codes must be valid for statement thru date on claim | | |
| DISCHARGE HOUR INVALID | Discharge hour must be present on inpatient claim and equal to 00-23 | | |
| HCPCS NOT VALID OR NOT VALID IN BC SYSTEM | HCPCS is not valid for the service date on claim or in the BCBSLA system | | |
| SUBMIT CLAIM TO HEALTHY BLUE | · · · · · · · · · · · · · · · · · · · | | |
| ICN CLM NUMBER NOT ON BC FILE | The ICN number entered is invalid. If the claim has been adjusted, the ICN number must be the most recent claim number | | |
| INVALID BILLING FREQUENCY | Third position of type bill must be a valid code and not equal to 5 or 6 | | |

| Error Message | Description |
|--|---|
| INVALID CONTRACT NUMBER | The patient's member ID is invalid |
| INVALID FROM DATE OF SERVICE | The from date of service cannot be greater than the current date and must be in a valid format |
| INVALID NEWBORN NAME | Must have a valid patient first name |

Electronic Trading Partner Agreement

In order to exchange electronic transactions with BCBSLA, we require the submission of our Electronic Trading Partner Agreement, which can be found along with the detailed enrollment instructions on our Provider Page at www.BCBSLA.com/providers > Electronic Services > Clearinghouse Services.

Transaction Specific: Loop and Data Element Specifications

| Loop | Reference Descript | Field Name | Required Value | BCBSLA Specification |
|--------|-----------------------|--|-------------------|--|
| | внтоз | Originator Application Transaction Identifier | | Unique number used to identify transactions. It is suggested that the number used in BHT03 be incremented by one digit sequentially for every file sent including re-submissions. BCBSLA uses this identifier to detect duplicate file submissions. Files will reject as a duplicate if the number in the BHT03 has been previously submitted. |
| 1000A | NM109 | Submitter Identifier | | Enter the submitter's 8-position numeric code assigned by BCBSLA which identifies your organization |
| 1000B | NM109 | Receiver ID | BCBSLA001 | Assigned by BCBSLA |
| 2000A | PRV02 | Ref ID Qualifier | PXC | Use PXC qualifier to indicate Health Care Provider Taxonomy Code |
| 2000A | PRV03 | Taxonomy Code Ref ID | | Use the taxonomy code found in this document that best identifies unit/location in which the services were rendered |
| 2010AA | NM108 | NPI Qualifier | XX | XX = National Provider Identifier (NPI) |
| 2010AA | NM109 | Billing Prov NPI | | Enter the National Provider Identifier (NPI) |
| 2010AA | REF01 | Ref ID | El | Use Billing Provider Tax ID number |
| 2010AA | REF02 | Billing Provider Tax ID | | Enter the Billing Provider Tax ID number |
| 2000B | SBR03 SBR04 | Group Number Group Name | | Enter the group number and/or group name. BCBSLA will not use to adjudicate. If this information is unavailable, "None" can be submitted in SBR04 Group Name to achieve HIPAA compliance. |
| 2000B | SBR09 | Claim Filing Indicator | BL | Must be BL |
| 2010BA | NM108 | Mem ID | MI | Use member ID number |
| 2010BB | NM108 | Payer Qualifier | PI | Use Payer Identification code |
| 2010BB | NM109 | Payer Identifier | 53120 | Use 53120 as the BCBSLA Payer ID |

| Loop | Reference Descript | Field Name | Required Value | BCBSLA Specification |
|------|----------------------------|---|-------------------|--|
| 2300 | CLM01 | Patient Control Number | | Patient Control Number – A maximum of 20 positions will be stored and returned by BCBSLA on the 835 ERA. A maximum of 15 positions will be returned on the paper payment register. |
| 2300 | HI01-1 | Principal Diagnosis Qualifier Code | АВК | Use ABK to indicate International Classification of Diseases Clinical Modification (ICD-10-CM) Principal Diagnosis |
| 2300 | HI01-1 thru HI12-1 | Other Diagnosis Qualifier Code | ABF | Use ABF to indicate International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis Codes |
| 2300 | HI01-2 thru HI12-2 | Other Diagnosis Code | | Allows up to 24 "Other" Diagnosis Codes |
| 2300 | HI01-1 | Admitting Diagnosis Qualifier Code | ABJ | Use ABJ to indicate International Classification of Diseases Clinical Modification (ICD-10-CM) Admitting Diagnosis |
| 2300 | HI01-1 HI02-1 HI03-1 | Patient's Reason for Visit Qualifier Code | APR | Use APR to indicate International Classification of Diseases Clinical Modification (ICD-10-CM) Patient's Reason for Visit Diagnosis |
| 2300 | HI01-2 HI02-2 HI03-2 | Patient Reason for Visit Diagnosis Code | | Allows up to 3 Patient's Reason for Visit Diagnosis Codes |
| 2300 | HI01-1 Thru HI12-1 | External Cause of Injury Qualifier Code | ABN | Use ABN to indicate International Classification of Diseases Clinical Modification (ICD-10-CM) External Cause of Injury |
| 2300 | HI01-2 Thru HI12-2 | External Cause of Injury Diagnosis code | | Allows up to 12 External Cause of Injury Diagnosis Codes |
| 2300 | HI01-1 | Principal Procedure Qualifier Code | BBR | Use BBR to indicate International Classification of Diseases Clinical Modification (ICD-10-CM) Principal Procedure Codes. |

| Loop | Reference Descript | Field Name | Required Value | BCBSLA Specification |
|------|---------------------------|---|-------------------|---|
| 2300 | HI01-1 thru HI12- 1 | Other Procedure Qualifier Code | BBQ | Use BBQ to indicate International Classification of Diseases Clinical Modification (ICD-10-CM) Other Procedure Codes |
| 2300 | HI01-2 thru HI12- 2 | Other Procedure Code | | Allows up to 24 "Other" Procedure Codes |
| 2410 | LIN03 | National Drug Identification Code | | When applicable, provide the National Drug Code (NDC) |
| 2410 | CTP04 &CTP05 | Drug Quantity and Unit of Measure | | When the National Drug Code (NDC) codes are reported, Drug Quantity and Unit of measure must be provided |

Appendices

Appendix I

Implementation Checklist

- Technical and business staff should review this guide
- Sign and return Electronic Trading Partner Agreement
- Establish connectivity
- Conduct testing
- Request move to production
- Exchange transactions

Appendix II

Business Scenarios

There are two primary methods for submitting transactions to BCBSLA.

Direct Transactions will be sent from your location directly to BCBSLA viayour medical

practice software. In this arrangement an Electronic Trading Partner Agreement

between BCBSLA and your location is required.

Indirectly Transactions will be sent/picked up from your location by a third-party

clearinghouse who will exchange with BCBSLA on your behalf. In this

arrangement, the Electronic Trading Partner Agreement is executed between

BCBSLA and the clearinghouse.

Frequently Asked Questions

Is there a charge from BCBSLA to submit electronic transactions?

No, BCBSLA does not charge a fee to exchange transactions electronically

How do I notify BCBSLA of my NPI or Tax-ID?

To do so, you may use one of the following ways:

1. Include it on your Louisiana Standardized Credentialing Application (LSCA), Health Delivery Organization (HDO) Application or BCBSLA Recredentialing Application.

| 2. | Include it on the online Provider Update Request Form at www.BCBSLA.com/providers > Resources > Forms. |

Summary of Changes

Below is a summary of changes to the 837 Institutional Claims Standard Companion Guide. Minor revisions not detailed in the summary include modifications to the text for clarity and uniformity, grammatical edits and updates to web links referenced in the document.

September 2019

Preface

• Added new section from Introduction and Scope information

Contact Information

Added new section

Revision History

• Removed section and replaced with Summary of Changes

General Information

- Changed section name from Introduction to General Information
- Moved Introduction and Scope information to Preface
- Updated guide online availability information

Connectivity with Payer/Communications

- Updated Screenshots for Configuring FTPS (Implicit port 990)
- Removed references to Configuring FTPS (Explicit port 10021) and Configuring SFTP

Payer Specific Business Rules

- Removed the BCBSLA Contract and Prefixes section
- Removed the ICD9 and ICD10 Claims Filing Guidelines

Acknowledgements, Error Codes and/or Reports

• Edited error descriptions to remove billing guidelines

Transaction Specific: Loop and Data Element Specifications

• Removed TR3 Page number references from table

February 2020

Not accepted error message descriptions

• Changed the name of the HLTHBLUE edit to SUBMIT CLAIMS TO HEALTHY BLUE. Added the JLA prefix to this error message
